Hawker Pacific announces delivery of the first King Air 350 into Aeromedical Service

Leading aircraft sales, services and product support company, Hawker Pacific, today announced the delivery of the first King Air 350C into aeromedical services in Australia as part of an agreement with the Australian Royal Flying Doctor Service (RFDS).

In what is a five aircraft deal secured by Hawker Pacific, a total of two **King Air 350Cs**, along with three King Air **B200Cs**, are being delivered to the Royal Flying Doctor Service, South Eastern Section who will operate the aircraft under contract to the Air Ambulance Service New South Wales.

Alan Smith, Hawker Pacific's Chief Executive Officer said: "We are delighted that the King Air 350C has been selected to operate alongside the 200C, which has been the primary aircraft providing outstanding aeromedical services throughout Australia .

"The King Air continues to set the standard for meeting demands that come with special mission requirements, from military training, Intelligence, ISR, maritime patrol and, in this case, medical evacuation and air ambulance fleet.

"Not only is the selection of the 350C a testament to the King Air range of product, it builds on the tremendous service and success that the 200C has provided over the years in Australia."

The King Air 350C offers utility, versatility and economical operations for the Air Ambulance Service NSW. Its larger cabin will be modified with aeromedical interior, and the aircraft come equipped with ex-factory cargo doors. The aircraft have been delivered to Hawker Pacific's MRO facility in Cairns for initial modifications.

Notes to editors

1. **Hawker Pacific** is a market leader in integrated civil and military aerospace sales and product support in South East Asia, Australia, the Pacific and the Middle East and is one of the largest independent companies of its type in the region with nearly 600 employees. The company's Asian operations include established businesses in Singapore, China, the Philippines, Thailand, Indonesia and Malaysia.

Hawker Pacific represents some of the world's leading aircraft manufacturers, including Hawker Beechcraft Corporation, Bell Helicopter and Diamond Aircraft. Hawker Pacific is also a primary dealer in used aircraft with networks to source, acquire and trade aircraft globally.

Hawker Pacific is also Australia's premier fixed base operator (FBO) with a network of facilities in Sydney, Brisbane, Cairns, Singapore and expansions into Shanghai and

Malaysia. The company's FBOs offer VIP services and crew facilities, 24/7 on demand aircraft charter from a modern aircraft fleet, flight operations and total aircraft management.

Hawker Pacific's product support activities include MRO, structural modification and support services to a wide range of fixed and rotary wing aircraft for corporate, charter, defence and special mission operators throughout the region. Other services include aircraft and engine maintenance, repair and overhaul, special mission aircraft modifications, design engineering, avionics parts and service, plus the provision of spare parts, exchange rotables and equipment sales.

Hawker Pacific holds the highest certification levels and accreditations including CASA, EASA and FAA certification, ISO 9001 Bureau Veritas accreditation, plus OEM customer / airworthiness approvals by 26 major global suppliers and civil and military regulatory authorities. These set the company apart from most others operating in the region, giving it a capacity to deliver complex special mission modifications for both civil and military customers.

The company's customers include airlines, commuter, corporate, general aviation, rotary wing and special mission operators, governments and the military.

2. **King Air 350C** - As the segment's greenest business aircraft, the King Air 350c has unmatched fuel efficiency and low operating costs. With class-leading capabilities and efficiency, the next-generation King Air 350C is the responsible, sustainable alternative that business aviation has been waiting for. As its segment's greenest aircraft, the King Air 350C can take more passengers farther on less fuel for consistent savings for your business. Plus, state-of-the-art design and performance enhancements represent new heights of power and durability.
